Information Literacy Section

Strategic Plan 2007-2009

Mission

The primary purpose of the Information Literacy Section is to foster international cooperation and to promote information literacy in all types of libraries, as well as to lead the information world in promoting information literacies as they relate to the three IFLA Pillars: Society, Membership and the Profession.

Relating to the presidential theme: libraries on the agenda.

Information literacy section is quite new. Half of the section is composed of new members (11 elected in 2007). Therefore the general goals of the section are

1. To learn to work together
2. To share tasks
3. To improve communication among members and with other sections
4. To go on with the different UNESCO projects but also on section work (Conferences. Guidelines)
5. To improve and disseminate information. The section should be an important actor in gathering and sharing information about IL (through members and corresponding members)

Goals, Priorities and Actions

1. Disseminate information about information literacy in different types of libraries and geographical areas
2. Advocate for information literacy in society and increase partnership with other organizations or institutions and within IFLA
3. Create new resources and documents

Goal 1
