We lack an overall IFLA vision on bibliographic standards and all aspects thereof. We need to work together and therefore we need a coordination body. We are on the cost of being in the position to create unified coordinated IFLA bibliographic standards that work well with one another and we are the only organization that is doing this right now. We need to identify this concern to the CoS, now the Advisory Committee. We can offer to work together on this, to assist them in their workload.
