DIGITAL INCLUSION IN SUB-SAHARAN AFRICA: THE ROLE OF LIBRARIES

BY: COMFORT A.B. ASARE
Wisconsin International University College, Ghana
Outline

- Introduction/definition
- How to promote digital inclusion
- Areas of concern for digital inclusion
- Role of libraries in digital inclusion
- Institutional initiatives
- Government initiatives
- Conclusion/ Way forward for libraries
Definition

According to the United Nations, digital inclusion is defined as “equitable, meaningful, and safe access to use, lead, and design of digital technologies, services, and associated opportunities for everyone, everywhere”.

26/01/2023 - IFLA’S PANEL DISCUSSION
How to promote digital inclusion

- Users should be our ultimate concern
- Create the right environment to enable access
- Be intentional about motivating people to use the system created
- Build users trust to use the available technology
- Need to collaborate to make the system function effectively
- Institute performance appraisal systems
Areas of concern

- Institutional and governmental policies on digital inclusion
- Infrastructure
  - Cost of infrastructure - hardware
  - Availability of requisite infrastructure
  - Security of infrastructure (hackers/viruses, institutional security to house devices)
  - Frequent updates to some technological platforms and the need for update
  - Online digital inclusion or in-house
  - Physical damage/theft to infrastructural cables etc
  - Changes in ownership of some digital platforms to newer ones with new pricing models

26/01/2023 - IFLA’S PANEL DISCUSSION
Areas of concern con’t:

- Institutional bandwidth to support digital inclusion
- Institutional digital setups – eg. Most institutions not cooperating to have union catalogues etc
- High cost of data
Areas of concern con’t:

- Exposure of most institutions with the coming in of covid-19. This was..

  Challenging as most institutions without the requisite platforms had to institute and implement measures to make things work out virtually
Areas of concern con’t:

- Technical Skills
  - Personnel (Library staff) – willingness to adapt to change
  - Users literacy level
  - Faculty’s literacy level
- Frequent power outages
## Libraries standpoint - Ghana’s situation

<table>
<thead>
<tr>
<th>Key areas</th>
<th>Who assisted / How it is realised</th>
</tr>
</thead>
</table>
| Capacity Building         | - Ghana Library Association  
                           - Consortium of Academic and Research Libraries in Ghana (CARLIGH)  
                           - African Library and Information Associations and Institutions (AfLIA)  
                           - Institutional initiatives  |
| - Staff (library)         |                                                                        |
| - Users                   |                                                                        |
| - Faculty                 |                                                                        |
| Resources sharing         | - Consortium of Academic and Research Libraries in Ghana (CARLIGH)     |
| - Electronic resources    |                                                                        |
| Online Public Access Catalogues | - Done at institutional levels                                   |
| Wifi provision            | - Carried out at institutional levels                               |
Some Initiatives in Ghana

<table>
<thead>
<tr>
<th>By Organizations</th>
<th>By Government</th>
</tr>
</thead>
<tbody>
<tr>
<td>Some Telcos offered free packages to support fight against Covid-19</td>
<td>Rolling out of free Wi-fi project to 13 public institutions <em>(Graphic Online)</em></td>
</tr>
<tr>
<td>Some private institutions provided 10GB data to support online classes</td>
<td>Government through the public library system offered virtual training to several librarians in Ghana</td>
</tr>
</tbody>
</table>
Conclusion

Going forward, there is the need for the following:

- More collaboration
- Policy on digital inclusion
- Advocate more on the need for digital inclusion in Africa and beyond
