Database/Register/Map

Please provide a brief description of the activity/output:

We will continue to research the full extent of library publishing activities globally to input into the Library Publishing Map of the World. We will continue to work with colleagues in the Library Publishing Coalition to capture data for the LPC Library Publishing Directory. Our research thus far has captured some 500 Chinese institutions with established library publishing programs. We have also contacted the publishing platforms for usage data for further research. We will also contact the DOAJ and DOAB to request that they add a tick box to their form: is your publication library supported. This will significantly expand the data captured.

The Library Publishing Directory is only published every two years now which explains the late date for next updated IFLA Map
