INTRODUCTION

Students are all different without learning, understanding and appreciating students. That is what makes unique and interesting human beings. Special Education Program has been organized in Malaysia since 1988 and designed to ensure that students with disabilities are provided with an environment that allows them to be educated effectively.

OBJECTIVE

Make a true love with a special student and message to them for confidence level to the future.

FOCUS

Deafness or blindness, mental disabilities such as down syndrome and autism.

COLLABORATION

Terengganu State Education Department, Malaysia.

CONCLUSION

Those activities encourage students to strive for their best by giving them a sense of connection and accomplishment.
