1.4	"Shape public opinion and debate around open access and library values." Identifying the library-as-publisher services showcases the open access values embraced by libraries in driving an open and social justice (human rights) agenda.
2.1	"Produce, communicate and distribute key resources and materials that inspire the profession." How will you communicate your activities and results?			
We will use the libpub listserv, IFLA-L, our website, and LPC's communication channels, including listservs, blog, and quarterly newsletter. Presentations at relevant conferences.			
How will you measure the impact of your activities?			
Document growth over time of international library publishing activities, using the 2019 Library Publishing Directory (produced by the LPC) as our baseline. The development of new projects, tools, communities, and best practices resulting from the connections that have been made by this initiative. We will collect feedback from participants in both the pilot and implementation phases of this project, to assess its efficacy and to guide future development.
