A member Celine Allain's report on standards review. I reviewed two standards : IFLA disaster preparedness and planning a brief manual and IFLA Handling, care and storage of photographs.

- IFLA disaster preparedness and planning a brief manual , identifying few little things for updating and adding a matrix "Levels of preparedness to disasters" inspired by the "levels of digital preservation" to fulfill the expectations regarding the adaptability of standards in different contexts.

- IFLA Handling, care and storage of photographs, I joined a matrix to synthesize the storage conditions from bad to good. I submitted to discussion a second matrix that connects degradations with possible preventive actions and stabilization options.

For this standard, I worked with the help of Philippe Berard, conservator of photographs at the national Library.
